

FRESH CUT DEAF TO LABOR'S WISH

In Conference on Anti-Trust
Bill He Shows His
Stand.

BIG JOB FOR CONGRESS

Legislative Program Must Be Finished
This Session, Is White House
Pronouncement.

President Wilson had two conferences yesterday with Democratic members of the House Judiciary Committee upon the anti-trust legislation. Important additions to the measure supplementing the Sherman act were agreed upon. Afterward Chairman Clayton announced that the bill probably would be introduced in the House today or tomorrow.

The President disclosed to Mr. Clayton and Representative Webb, who was given a separate conference from the three members of the special subcommittee, that he is opposed to the exemption of labor unions and farmers' organizations from anti-trust prosecutions and injunctions provided by the Bartlett-Bacon bill. He made important concessions, however, by approving the addition of these sections to the anti-trust bill.

First, the so-called Clayton injunction bill which passed the House two years ago, and forbade the issuance of "overnight" injunctions.

Second, the Clayton bill, passed about the same time, governing contempt cases, where disobedience of court injunctions are alleged.

The injunction provision which will be added to the administration bill requires a hearing on all applications for injunctions except in cases where irreparable damage is alleged to be sustained. Its incorporation in the anti-trust bill will strengthen labor unions contemplating strikes because it will grant them hearing before the court where an injunction against a strike is sought.

The contempt bill grants a jury trial to persons held in contempt of court in cases where the contempt was not committed in the presence of the tribunal. Thus labor unions charged with violating a strike injunction will be allowed to present their arguments to a jury instead of accepting the penalty of the court which issued the injunction.

Job Before Congress

The anti-trust bill which Mr. Clayton will introduce this week will include, besides the two measures referred to, the principal features of the trades relations, holding companies and interlocking directorates bills, tentative forms of which already have been made public.

Official announcement was made at the White House that the President would complete the completion of the anti-trust program before the adjournment of Congress. It was announced that the President would introduce the anti-trust bill and the trade commission bill as a redemption of the platform pledge of the national campaign.

The President informed the members of the Judiciary Committee that he would not tolerate an attempt to curtail the program in any way. In addition he denied that he had consulted with any members of Congress upon the advisability of changing the trade relations bill. He said in order to permit Congressional candidates to go before the country on the tariff and currency issues alone.

At the same time the President defended the members of the committee who have been entrusted with drafting the trade revision legislation against the charge that they had been unduly slow in completing their task. He pointed out that only a little over ten weeks had been consumed.

The bill, as introduced by Mr. Clayton, immediately will be referred to the Judiciary Committee, and it will develop from that body the measure which hearings are needed before the measure is to be reported. Indications are that the Democratic members of the committee, other than Messrs. Clayton, and Mr. Floyd, who have been the President's advisers in the framing of the bill, will insist upon adequate hearings. These members, except Mr. Webb, who was called to the White House yesterday, are said to be completely in the dark as to the work which has been done by their colleagues.

It is the hope of the President and Chairman Clayton that the hearings, if called for by the committee, will not consume more than a few days. The President is confident that the full Democratic membership will line up with fair promptness in support of his wishes.

SEES NO RELIEF FOR STEEL

J. C. Mahan Says Depression Will
Continue Until November.

New York, April 12.—J. C. Mahan, president of the Sloss-Sheffield Steel and Iron Company, declared today that he believes the present depression in the steel industry will continue until November.

Mr. Mahan has just returned from an inspection of the company's plants at Birmingham.

"Steel men see nothing hopeful now," continued Mr. Mahan. "Business could not very well be more depressed. Until generally is over, there can be no recovery here."

To Be Known To All

The Special Committee of the Syrian P. O. Society, of Washington, D. C. wishes it to be known that at its last meeting, held on Sunday evening, April 12, at 8 p. m., it called the second suit, which has been donated by ELIAS JOSEPH.

The well-known TAILOR AND IMPORTER, of the firm of W. W. & H. C. C. for the benefit of same society to conduct its work. The suit was won by P. Marshall, of 11th and 12th Sts. N. W.

The first suit was won by P. Bonami, of 21st and H Sts. N. W. some months ago.

The proceeds were returned to the Treasurer of the Society. The committee wishes on behalf of all the members of the society to thank those who helped out in general and brought tickets into the room, especially for his grateful kindness.

SAM N. KATTA, Secretary.

P. S.—Order your Spring Suit from Elias Joseph, 735 15th St. N. W.

OPINIONS DELIVERED BY SUPREME COURT

Writ of Certiorari Refused Cramps
Shipbuilding Company in Patent
Infringement Suit.

IMPORTANT CASES PASSED UP

The Supreme Court devoted only about forty-five minutes yesterday to delivering opinions. None of the important cases before that tribunal was decided.

The court, by refusing to entertain an appeal from the Supreme Court of Illinois, in the case of the Northern Trust Company as trustee against the State of Illinois, affirmed the legality of the Illinois State authorities in imposing an inheritance tax on stocks held in a Chicago corporation by the late James C. King, a Chicago millionaire, and which passed to his heirs by his death. The collection of the tax on these securities was resisted by the Northern Trust Company, as trustee of the King estate, on the ground that the securities already had been subjected to a tax in the State of California. The Supreme Court held yesterday that the Illinois Supreme Court had final jurisdiction in the matter, and that court had held that the tax was properly collected.

In an opinion by Justice Holmes, the court affirmed the judgment of the Supreme Court of Montana, upholding the validity of a statute of that State imposing a tax of 1 cent a pound on oleomargarine. The tax was resisted as unconstitutional because discriminatory, in that the State imposed no tax on dealers in butter. The Supreme Court held that the oleomargarine tax had been uniformly upheld in the past as entirely constitutional.

The Chief Justice announced that the court had refused a petition of William Cramp & Sons Shipbuilding Company for a writ of certiorari to review the judgment of the Federal Circuit Court of Appeals for the Third Circuit, finding against the Cramp firm in a suit brought by the International Curtis Marine Turbine Company, and the Curtis Marine Turbine Company of the United States, for infringement of patents.

The case decided yesterday was one phase of a long litigation over the alleged infringement of patents, owned by the Curtis Turbine Corporation. The Cramps used the turbines in certain torpedo boats built under contract with the government for the Navy Department. The Cramps urged that because the turbines are displacing the reciprocating type of steam engines in all large fast vessels, and in all large plants where steam is used for producing electricity, that the courts ought to grant them a writ of certiorari to build turbines of the type claimed to be covered by the patents free from the payment of burdensome royalties and other "chain" restrictions.

But the Supreme Court declined to grant the writ of certiorari.

MR. LOBECK RAISES

"HAMAN'S GIBBET"

Resolution Seeks Causes of Reduction
of Wages in Iron and Steel
Industries.

Haman's gibbet is being raised, but Representative Lobbeck, of Nebraska, a Democrat, and not the President, is doing the job. Mr. Lobbeck introduced in the House yesterday a resolution calling for an inquiry into the causes for the reduction of wages and working forces in the iron and steel industries.

The resolution recites that Congress has passed a law "for the purpose of reducing taxation, encouraging business development and promoting prosperity throughout the country." It adds that according to recent reports, a number of presidents of so-called "independent" steel manufacturing companies recently met in Pittsburgh to arrange a uniform reduction in wages.

Mr. Lobbeck incorporated in his resolution a statement taken from a trade publication, in which it was said that "it now seems likely that wages will be reduced at iron and steel works if conditions as to prices and demand continue as unfavorable as they are now."

The resolution directs the Secretary of Commerce to make an inquiry into the situation and provides that the Secretary shall report to the House and to the Senate the reasons for such recommendation as to the House with such recommendation as to the Senate, and the reasons for such recommendation as to the Senate.

MISS RICHARDS CLOSES LECTURE SEASON IN AUDITORIUM OF WOODWARD & LOTHROP'S

Women in Audience Are Told How
to New Minister from China—Answers
Suffrage Question.

Miss Janet Richards closed this season's course of lectures on current topics at the auditorium of Woodward & Lothrop's yesterday morning, with one of the most interesting and instructive talks she has given this year.

The present status of the tolls controversy with the new treaty introduced by Secretary of State Bryan, to compensate Colombia for her wounded feelings in the loss of Panama in 1903, was clearly explained by the speaker. Miss Richards had no defense to offer for Roosevelt's act, but quoted from him to show that he recognized the dependence of Colombia as a good thing to use in a business way.

"Colombia's attitude when she was offered the \$10,000,000 bond for the Panama Canal territory, and refused to take it up, permitting the country to buy it from Panama instead, reminds me much of the action of the women of Seattle re-elected Mayor Hiram Gill."

Miss Richards could not explain why the mayor, who had been recalled, was reinstated. The reason was that he had been a new promise which the women believed he would fulfill.

"And he has fulfilled them," the speaker said. "By putting in a chief of police who has cleaned out the town and they both are 'making good.'"

MANAGERIE NEEDED FOR GREEK PAGEANT

Committee Wants Two Bulls with
Rings in Noses, 2,000 Pigeons,
Sheep and Horses.

MASSED REHEARSALS TONIGHT

There will be a general foregathering of the forces for participation in the Greek pageant-drama, "The Fire Rehearsal," at the committee headquarters in the old Builders' Exchange, 1217 H street northwest, tonight.

Every vocalist in Washington is expected to join the massed chorus at 8 o'clock this evening, which is being organized by Percy S. Foster.

Juvenile and adult dancers are needed, too. The classic dance groups have been splendidly developed by Miss Effie M. Baker, daughter of Dr. Frank Baker, superintendent of the Zoo. Miss Baker holds rehearsals of her groups every afternoon at 5 o'clock.

Young men and young women with gymnastic training are desired also to impersonate characters from the underworld, who appear in weird scenes to prey upon the maidens. From among the pans and satyrs two athletes must be found who can produce a wrestling match that will be the acme of realism in mortal combat.

Manager Mosser is on the lookout now for bulls with rings in their noses for the goring scene in the play. The bull "ordred" is one of the very big scenes in the spectacle. The committee is also in need of 2,000 pigeons, a herd of sheep, and eight head of white and black horses. The equines must be fleet of foot, as they are to be used in the chariot race, which is another of the thrilling ordinals in "The Fire Rehearsal."

An extensive dyeing works in Philadelphia is conducted by Miss Katherine R. Allen, daughter of the founder of the business.

AVOID IMPURE MILK For Infants and Invalids

Get
HORLICK'S
It means the Original and Genuine
MALTED MILK

"Others are Imitations"
The Food-Drink for All Ages
Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the whole body. Invigorates nursing mothers and the aged. More healthful than tea or coffee.

Has no substitutes. Ask for HORLICK'S. HORLICK'S Contains Pure Milk

Secretary of the Interior Lane has just issued a statement summarizing the land classification work done by his department during the month of March. The great activity was in the designating of lands for entry under the enlarged homestead act. Areas in Colorado, Idaho, Montana, Nevada, North Dakota, Oregon and Wyoming, comprising a total of 2,667,000 acres were designated under this act, the largest area being 1,333,000 acres in Oregon. This brings the total, which the department has classified as subject to 280-acre homestead entry, up to 23,300,000 acres.

LIND RETURNS FROM MISSION IN MEXICO

Special Representative of President
Spends Day in Conference in
State Department.

MAY CEASE NEGOTIATIONS

Twenty-four hours before he was expected, John Lind arrived in Washington at 10 o'clock yesterday morning, on board the Presidential yacht Mayflower. He came direct from Vera Cruz, where he has been ever since the failure of his negotiations with President Huerta early last fall.

Mr. Lind was awaited at the dock of the Washington Navy Yard by a score of reporters, photographers, and moving picture men. He declined to be interviewed by the reporters, and had the naval authorities show the photographers and moving picture men away from his path.

Mr. Lind was taken in a government automobile to his hotel, where Mrs. Lind was awaiting him, having just arrived from Minnesota. After a few minutes at the hotel, Mr. Lind went to the State Department, where he put in most of the day. His morning conference with Secretary of State Bryan was interrupted by the reception of the Secretary of State by the Secretary of the Navy, Mr. Daniels, who was summoned to Mr. Bryan's office, and with a number of officials of the Department of State. Mr. Lind had opportunity to discuss naval matters with Secretary of the Navy Daniels, who was summoned to Mr. Bryan's office, and with a number of officials of the Department of State.

Mr. Lind shows no signs of the had health, said to have been the cause of his return from Mexico, to which it is believed here, he will not return in the capacity of special agent of President Wilson. He looked bronzed and rugged, and apparently felt as well as he looked. His present plans are indefinite, depending upon the President's wishes, but he expects to spend most of the week in Washington, and then go to French Lick, Ind., for a rest.

CHURCH LOTS DEBT WIPED OUT

The Easter rejoicings at All Souls' Episcopal Church, Rev. J. McBride Sterrett, rector, were increased by the announcement that, in addition to the Easter offering, the united efforts of the rector, the Ladies' Aid Society and the men's canvassing committee eliminated the remainder of the debt on the church lots, amounting to \$100. A sufficient sum also was pledged to complete the Sunday school rooms of the new church.

It has been demonstrated that over-grazed stock ranges on the National Forest can be brought back to use under a system of regulated grazing faster than if they are left unused.

SURE WAY TO GET RID OF DANDRUFF

End Itching Scalp and Stop Falling
Hair—At Once.

There is one sure way that never fails to remove dandruff completely and that is to use this. It destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and in four more applications will be completely dissolved and entirely destroyed every single grain and trace of it no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky, and soft, and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless and everybody knows it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

WILSON'S HAND IN CAPITAL FIGHT

Executive to Discuss District
Problems at Conference
Tomorrow.

PROTESTS ARE RECEIVED

Pennsylvania Legislators in House
and Senate Urged to Resist
Adverse Legislation.

President Wilson will discuss District affairs, including the tax question, with representative citizens at the White House tomorrow morning. This announcement was taken as an indication that the President is anxious to learn more about the Capital, and that he may be depended upon to take a hand one way or the other in important District legislation pending in Congress.

The President made it known yesterday that he would be pleased to receive a delegation consisting of former Senator J. C. Blackburn of Kentucky, author of the "organic act," former Commissioner Cuno H. Rudolph, now president of the Board of Trade; William F. Gude, president of the Washington Chamber of Commerce; Col. George Truesdell, former president of the Board of Trade; Theodore W. Noyes, Louis P. Shoemaker, president of the Bridge and Cable Manufacturers Association; Henry B. Macfarland, chairman of the executive committee of the Committee of One Hundred; James F. Oyster, former president of the Board of Education; Martin A. Knapp, chairman of the Board of Mediation and Conciliation; and Brainerd H. Warner, former president of the Board of Citizens' Association.

It is evident that the Chief Executive is deeply interested in the half-and-half plan and all pending legislation affecting it. Former Senator Blackburn and some of the other members of the delegation are amply qualified to enlighten him on that and other District affairs. Committee members' analysis of the tax situation, which was recently held before the President, will play a part in the deliberations at the White House.

Mr. Blackburn is expected to daily reaping the fruit of his recent labors for fair legislation for the National Capital. Yesterday the entire Pennsylvania delegation in both House and Senate received protests from the civic club of Allegheny County, Pa., against "all pending legislation designed adversely to affect the development of the National Capital, or its rank among national capitals the world over. The following is a copy of the letter:

Protest Against Attack.

"We are informed that four measures are pending in the House and Senate, which, if enacted, will destroy the 'half-and-half' plan under which the city of Washington has been developed. These measures are: 1. A bill to amend the District of Columbia Organic Act of 1800, so as to give the President the right to appoint and remove the Mayor of the District of Columbia. 2. A bill to amend the District of Columbia Organic Act of 1800, so as to give the President the right to appoint and remove the Council of the District of Columbia. 3. A bill to amend the District of Columbia Organic Act of 1800, so as to give the President the right to appoint and remove the Board of Commissioners of the District of Columbia. 4. A bill to amend the District of Columbia Organic Act of 1800, so as to give the President the right to appoint and remove the Board of Supervisors of the District of Columbia. We believe that the policy in use in the past has been fair and just, and we are convinced that any substitution of another policy or radical changes in the present plan will seriously hinder the future development of this city."

"If you have not already done so, we urge you to inform yourself on the issues at stake and use your influence to prevent the passage of any measures which will threaten the place that our Capital should occupy among capital cities of the world."

ALASKA IN DARK AS TO ROAD.

Delegate Wickham, of Alaska, yesterday stated he is receiving many inquiries from towns in Alaska as to when work will begin on the Alaska railroad. "I am absolutely without information," he said, "as to when the President will designate the authority which is to take up the survey work. The survey should be begun early, as our summer is very short. We do not want to complain at any delay, because the President and Secretary have helped us a great deal, but we are growing anxious."

NEW EXCHANGE BANK OPENS DOORS TODAY

Washington's Latest Financial Institution, with Col. R. L. Montague
President, Ready for Business.

The Exchange Savings Bank, of Washington, located at the northeast corner of Twentieth street and Pennsylvania avenue, will open today. The bank will be open for the inspection of its patrons and friends from 9 a. m. to 3 p. m. The bank was conducted last night as a branch of the Munsey Trust Company, but was purchased by a number of prominent Washingtonians for the purpose of conducting a general savings business. It has a capital of \$50,000, surplus of \$10,000, resources of over \$20,000, and over 400 depositors.

The officers of the bank are Robert L. Montague, president; M. F. Finley, first vice president; Victor J. Evans, second vice president; Elmer Sotheron, treasurer; John R. Flynn, cashier, and William K. Nagel, assistant cashier. Directors: M. E. Buckley, D. Connor, H. M. Dixon, J. E. Donovan, William V. Griffin, Hugh Harvey, George C. Hinton, C. Clinton James, M. T. Keane, P. T. Niland, H. R. Polkthorn, E. T. Quigley, Alexander J. Schwarz, U. Grant Smith, Anson S. Taylor and Edward W. Whitehead.

Col. Robert L. Montague, the president of the Exchange Bank of Washington, is a native of Virginia, having been born in Essex County. He is a member of the Virginia bar and also a member of the District of Columbia bar. He has been actively connected with the banking business. He was vice president of the old Providence Savings Bank and vice president of the Mercantile Bank. These two banks were merged with other banking institutions of the city, since which time he has been identified with the Union City Savings Bank, being a member of the board of directors and a member of the executive committee.

He has been deputy grand president for the last three years of the Fraternal Order of Eagles, and also is a Mason. He is treasurer of the Southern Society.

Mr. John R. Flynn, the cashier of the bank, is a native of Richmond, Va., but has resided in Washington for the last thirty years. He was educated in the public schools of Georgetown, and after leaving school was for a number of years engaged in the mercantile business. He is well known throughout the city, and has a host of friends.
